

Subsidised commercial refrigeration

What we offer

Shine On is now offering energy efficient fridges and freezers for Victorian businesses. Recent changes to the Victorian Energy Upgrades (VEU) program have allowed us to offer our clients improved commercial refrigeration at highly subsidised prices.

How does it work?

Any business in Victoria that sells items out of a fridge or freezer is eligible for the subsidy. Certain units will be completely free, others will incur a subsidised cost. The amount of fridges you can receive is set by the VEU and is based on the size of the store.

What type of units are subsidised?

The VEU program is providing subsidy support for all units that are registered under the Greenhouse and Energy Minimum Standards (GEMS) Act 2020. These include some that are partially subsidised, and others that are completely free of charge.

Partially subsidised units

Chest freezers

Available in a variety of sizes, ensuring reliable storage of food for display or back-of-house storage.

Food displays

Food displays are available in hot, ambient or cold. They offer a perfect solution for displaying your food at the desired temperature, keeping for products fresher for longer.

Free units

Countertop merchandisers

Countertop beverage fridges offer a stylish and durable display option for those wishing to encourage beverage purchases at the point-of-sale.

Single door display

Upright single-door display fridges offer a reliable, compact solution for self-service retail applications.

Double door displays

Upright display fridges and freezers offer reliability in a stylish casing, creating display solutions suited to self-service retail applications.
